

## • Education, Training & Certifications

- **BCA in Computer Science, University of Rajasthan**  
- 2013
- **Google Associate Android Developer**
- **Kotlin for Android Developers Certification**

## • Total Experience

9+ years

## • Professional Summary

- Senior Android Developer with over 9 years of expertise in mobile application development, project execution, and system integration.
- Proficient in Kotlin, Java, Android SDK, and modern development frameworks.
- Adept at implementing clean architecture (MVC, MVP, MVVM), optimizing performance, and collaborating with cross-functional teams.
- Strong experience in CI/CD, Unit Testing, Firebase, and Agile methodologies.
- Passionate about developing high-performance applications with a seamless user experience.

• **Work Experience**

**Senior Android Developer at Noise | Gurgaon**

March 2025 - Present

- Developed and maintained Android applications using Kotlin.
- Implemented MVVM architecture to enhance modularity and maintainability.
- Integrated RESTful APIs with Retrofit for seamless data synchronization.
- Optimized asynchronous data handling using Kotlin Coroutines.
- Implemented custom graphs using Canvas API.
- Developed an offline-first architecture utilizing Room Database and Work Manager.
- Developed comprehensive unit and UI tests using JUnit, Espresso, and Mockito to enhance application reliability.
- Configured CI/CD pipelines with GitHub Actions for automated builds and deployments.
- Enhanced UI/UX using Material Design and Jetpack Compose.
- Reduced ANRs and crashes by 30% through performance profiling and debugging.
- Led a team of developers, conducted code reviews, and provided mentorship.

**Senior Android Developer at Strawberry InfoTech Pvt. Ltd. | Gurgaon**

Dec 2021 - Dec 2023

- Built multiple Android applications using Java and Kotlin.
- Implemented MVVM architecture for improved modularity and maintainability.
- Integrated Firebase services including Authentication, Analytics, and Cloud Messaging.
- Migrated legacy Java applications to Kotlin, enhancing performance and readability.
- Developed an offline-first architecture utilizing Room Database and Work Manager.
- Increased test coverage and reduced production bugs through automated testing workflows.

**Senior Android Developer at Forthpro IT Solution | Jaipur**

Jan 2021 - Dec 2021

- Developed Android applications using Java and Kotlin, adhering to best practices.
- Integrated Firebase features including Authentication and Analytics.
- Migrated legacy Java applications to Kotlin to enhance performance.
- Designed an offline-first architecture leveraging Room Database and Work Manager.
- Increased test coverage and improved application reliability through automated testing.

**Senior Android Developer at IRIS Worldwide Integrated Marketing Pvt. Ltd. | Gurgaon**

May 2018 - Dec 2020

- Developed feature-rich Android applications using Java and Kotlin.
- Integrated Firebase services for authentication, analytics, and real-time database.
- Designed and implemented CI/CD pipelines using GitHub Actions.
- Migrated legacy apps to Kotlin for enhanced code efficiency.
- Automated testing workflows, increasing test coverage and reducing bugs.

**Senior Android Developer at Octal Info Solution Pvt. Ltd. | Jaipur**

Dec 2014 - May 2018

- Developed multiple Android applications using Java and Kotlin, adhering to best practices.
- Integrated Firebase services and managed data with SQLite and Realm databases.
- Configured SVN for automated application builds and deployments.
- Improved code quality and application stability through rigorous testing and debugging.

• Projects

Past Projects

Healthcare App

- Built a telemedicine platform with video conferencing, appointment scheduling, and chat features..

Employee Engagement App

- Created an interactive app with surveys, rewards, and social features to boost engagement..

Meditation & Wellness App

- Implemented guided meditation features, background audio streaming, and in-app purchases..

Insurance App

- Developed an insurance management app with policy tracking, claim submission, and chatbot support..

• Technical Skill Set

SCRIPTING  
LANGUAGES

Kotlin Java

FRAMEWORKS

MVC MVP  
MVVM  
Jetpack Components  
Dagger/Hilt  
Retrofit Room  
Firebase  
Live Data  
Kotlin Coroutines  
Multi-threading  
JUnit Espresso  
Mockito

DATABASES

SQLite  
Room Database  
Firebase Realtime Data
